

A2 size T shirt printing machine for sale T-600

Product Advantage

Why choose us ?

- Abundance Color Display
- Accurate Printing Position
- Multi Function and Wide Usage
- Easy Operation
- Low Cost and High Profit return
- One Year Warranty and Lifetime Technology Support

1. Industrial grade 16 highlight true color touch screen, higher sensitivity,
2. Unique fully sealed ink cartridges,
3. Running state tips synchronization ,
4. operation state tips synchronization,
5. Print status tracking display,
6. Troubleshooting Tips,
7. Standardized production,
8. Platform signal transmission device,
9. Standard mold, print T-shirt area reach to 40cmx60cm,
10. Print head collision avoidance device.

Characteristics

1. T600 is direct to garment inkjet printer. It prints directly with amazing speed up to 50 light shirts or 15 dark shirts per hour, it can print also on: light and dark colored textiles like: t-shirts, towels, jeans, aprons, bags or else, with superb adhesion of ink. You can print beautiful full-color prints on any fabric faster and cheaper than on any other printer, or with other technologies like: thermo transfer or screen printing. It is very easy to use and has a high profit return.
2. White Ink
Water-based white ink was specially developed for printing on dark garments by creating a solid surface on the printing area before applying the CMYK inks. This white layer is digitally applied directly onto the desired location on the garment, allowing to immediately applying the CMYK colors, wet-on-wet.
3. Ink System
Revolution in direct garment printing! T600ink System is crucial for smooth day to day operation without losing ink or print head starvation and clogging. System is 100% vacuumed, so no oxidation and ink starvation is happening during the printing. No need for clogging filters, or expensive daily cleaning and printing unnecessary files to get the good printing conditions. Ink is consistent Always, 100% automatic.

T600 adopts a brand-new digital printing mode that can be used as the substitute of screen printing, and transfer printing. It realizes color printing without plate making or repeated color register, while it is highly waterproof, wearing resistant. It offers higher printing quality than traditional method, simple operation and stable performance. Thus, it can completely meet batch production of large scale in various areas and improve the competitive power of products.

Specifications for T600

Print model	T600
Print size	Max 420mmX600mm
Specifications	950×850×570 mm(W*L*H)
Printing Method	Ink-jet (Micro Piezo Head)
Net weight	226Kg
Gross weight	230kg
Print speed	up to 50 light shirt/hr or up to 15 dark shirt/hr
Print head cleaning method	automatic
Transmission mode	USB2.0
Print resolution	2880*1440dp
Software	Rip software
Material used	Cotton, polyester, silk...
ink	Water textile pigments: C, M, Y, K, 4Whites
Supply ink	big capacity ink cartridge
Power	AC220V/110V
Driver	Win XP/7
Operating environment	Temperature:10-35degree,Humidity:20-80%
Packing	Temperature:10-35degree,Humidity:20
Price	: 4,25,000.00 + 5.5% VAT + Delivery + Installation
