Printing status tips synchronization

Welcome use HAIWN series digitalPrinter!To ensure working properly, please obey operation manual.

The platform is moving forward.Make Sure that no obstacles in front of the working platform.

Print head collision
avoidance device

Installed with infrared sensors to detect different print height,
to make sure print head collision avoidance

Standardized production

Standard batch mold which realize mass production.

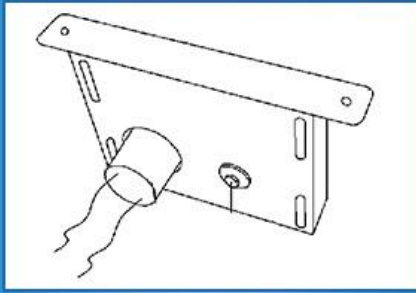

Strong white ink layer

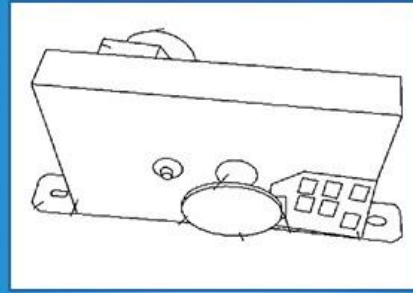

Abundance color display

Digital inkjet printer can achieve high end Multi-color ink-jet and precise printing chromatic based on images, and realize abundance color display. The potential market of digital inkjet printer is promising.

1.Brand new coded signal transmission device to make sure printing more stable.

2.Innovative platform signal transmission device to make sure quality more reliable.

Multi function and wide usage

The printing objects can print all textile products like cotton,polyester,jeans,wool,canvas,etc....

Low cost and high profit return

Haiwn digital printer adopts CISS(Continuous Ink Supply System), One time ink filling can print 48 square meters. high efficient and time saving. It only costs 1.25ml ink to print an objects with a3 size full color full image.

Specification for AR -T500 T-shirt printer

print model	AR-T500
print size	A3+(320mmX420mm)
Specifications	640×480×710 mm(W*L*H)
Packing size	780×700×520 mm(W*L*H)
Net weight	53Kg
Gross weight	63kg
print speed	173 sec(A3 photo)
Print Weight	8Kg
print head cleaning method	automatic
transmission mode	USB2.0
print resolution	5760*1440dpi
special ink	CMYK+2 white
supply ink	ink cartridges
power	AC220V/110V
driver	WINDOW95/98/2000/NT/XP
Operating Environment	Temperature:10- 35degree,Humidity:20-80%
packing	Anti-pressure carton

Price : Rs. 3,25,000.00 + 5.5% VAT + Delivery + Installation
